FEDERAL CONTRACTING | CAPABILITY STATEMENT

Demigon Holdings LLC

Cybersecurity | AI/ML & MLOps | Software Engineering

CAGE	UEI	SAM REGISTRATION	OWNERSHIP
26GZ7	WQ7LPVEQNSV1	Active | All Awards	Veteran-owned

Demigon Holdings LLC provides cybersecurity engineering, AI/ML and MLOps development, and custom software through Surface Vector Technologies. Available for prime contracts and teaming.

CORE CAPABILITIES

Cybersecurity Engineering

Endpoint protection, vulnerability assessment, remediation support, security configuration and defensive operations.

Deliverables: Assessment reports, remediation plans and automation.

AI, Machine Learning & MLOps Development

Local/private AI integration, model serving and deployment pipelines, evaluation, monitoring and lifecycle automation.

Deliverables: Model services, deployment pipelines and runbooks.

Software & Infrastructure

Custom applications, APIs, Python/PowerShell automation and Linux systems integration.

Deliverables: Source code, deployment files and technical handover.

SELECTED TECHNICAL EXPERIENCE

HORUS | Founder-developed AI platform

Local-first platform integrating LLM APIs, tool orchestration, workflow automation and restart recovery.

Endpoint security automation | Professional experience

Integrated vulnerability findings with endpoint isolation and notification workflows in a DoD support role.

Examples reflect founder development and professional employment experience.

FOUNDER EXPERIENCE

20 years of United States Marine Corps communications service.

DoD cybersecurity engineering
Enterprise endpoint security, vulnerability management and operational automation.

Founder-led technical delivery
Direct engineering accountability from requirements through implementation and handover.

SERVICE-ALIGNED NAICS

541511	Custom Computer Programming Services
541512	Computer Systems Design Services
541513	Computer Facilities Management Services
541519	Other Computer Related Services

Proposed service alignment. SAM-listed codes require confirmation.
